**ABOARD S. S. PRESI-
DENT WILSON, Sept. 2.**—
Last night, about eleven p. m., eighty miles south of
Cape Hatteras in a very sud-
den and unexpected cloud-
burst of rain, the S. S. Presi-
dent Wilson collided with
the S. S. Coldwater.

The latter vessel's cargo on deck
and in the holds immediately took
fire and soon the ship was in a mass
of flames, sinking within an hour.

All on the vessel were saved, in-
cluding one lady passenger and two
children.

The vessels Gulf Breeze, Christy
Payne and J. C. Donnell arrived and
stood by until assured of all being
saved and no help required.

The President Wilson's bows are
damaged and she is now proceeding
towards Norfolk safely and expects
to arrive this evening.

Gallant Rescue.
NEW YORK, Sept. 2.—A gallant
and efficient rescue at sea was re-
corded today following the collision
of the Dollar liner President Wil-
son with the freighter Coldwater

PA NEW OBSERVES

Pa New received a call at noon
today from a citizen, who expressed
surprise over the fact that as he
passed along South Jefferson street
this morning in the vicinity of the
Carnegie Auditorium, where free
flour is given out by the Red Cross
he saw a crowd receiving the flour
and some fifty automobiles appar-
ently belonging to those people,
whom he saw carrying the flour to
the cars.

The recently inaugurated custom
of hoisting the American flag every
day on the public square instead of
holidays only, is a good one, and Pa
New heard some of the com-
ments on the matter this morning.
The flag is lifted by one of the city
and police officers each morning and
lowered again each evening.

Thirty-two saddle horses are back
in their stalls at Troop F stables,
West Washington street extension,
today, after a long trip by box car
from Mt. Gretna. The steeds, most
of which had made the Mt. Gretna
trip in previous years, took the train
ride rather optimistically and made
little or no disturbance. They were
led by halter from the Pennsylvania
depot to the home barn.

Junior Dufford, ten year old son
of Mr. and Mrs. Gus Dufford, who
spends most of his summer leisure
in fishing, was rewarded yesterday
for his patience by landing a nice
eleven and a half inch bass while
fishing at the cement dam. Earlier
in the day he had a larger fish on.

AS ACTRESS DENIED LOVE THEFT

Claire Windsor, right, pretty blond film star, is shown as she ap-
peared in a courtroom at Los Angeles to answer charges that she had
stolen the affections of Alfred C. Read, inset, Oakland, Cal., stock broker,
in the trial of the \$100,000 alienation of affections suit filed by Read's
former wife, Marian Read, against the actress. At the left, Miss Win-
dors and Read are snapped in an embrace, a photo similar to the 47 snap-
shots introduced in the trial, which the actress says "didn't mean a
thing". Miss Windsor, testifying she did not know Read was married,
broke down in tears when some of his letters to her were read in court.

Troop Arrives This Morning

Unable To Keep Appoint-
ment For Pittsburgh Ex-
hibition Due To Mix-
up In Orders

**SGT. POLLOCK IS
LEFT IN HOSPITAL**

In apparently good physical con-
dition, despite their weary expe-
riences in camp at Mt. Gretna the
last two weeks, Troop F, 103rd Cav-
alry arrived home at 10 o'clock this
morning, twelve hours ahead of their
anticipated return due to a mixup in
train orders in Pittsburgh.

The troop arrived in Pittsburgh at
4 o'clock this morning from Mt.
Gretna, and were supposed to have
been transferred from the Penn-
sylvania line to the B. and O., and
transported to South Park, where
they were to have staged a drill and
rodeo for the Allegheny County
Fair.

No Arrangements

Evidently someone connected with
the fair failed to notify the rail-
road of the change in train sched-
ule, and as the Troop had orders for
transportation to New Castle, they
had to come on home.

Capt. Harvey G. Bintrun stated
that while the boys were disappoin-
ted, the rest for the mounts was badly
needed, as they were pretty badly
used up, due to the muddy condi-
tion of the camp, following the
heavy rains.

With the exception of colds, which
most of the troop members are suf-
fering from all are in good condition
but First Sergeant George Pollock,
who received a broken jaw when
kicked by a horse on Wednesday,
Sergeant Pollock was running a
temperature yesterday and the med-
ical authorities at camp refused to
permit him to make the journey un-
til later.

**Distribution Of
Blotters Censured**

Complaint is being made that
some of the candidates visited regis-
tration booths during the recent
registration and distributed blotters
to the persons making the registra-
tion. It is claimed that the county
furnishes all the blotters necessary
and candidates have no right to re-
sort to this form of advertising.

SUSPECT DIES FROM WOUNDS

(International News Service)
PITTSBURGH, Sept. 2.—Shot in
the abdomen as he attempted to
flee from detectives in front of the
north side police station, Raymond
English, suspected safe cracker, died
today in Allegheny hospital.

He was wounded Thursday when
he leaped from a squad car as it
approached the station house. He
had been arrested a short time be-
fore for Parkersburg, W. Va., au-
thorities.

Marguerite Bosley of Baltimore,
suspected "girl friend" of English,
was returned to Parkersburg a few
hours before English died. She was
picked up here less than 24 hours
after police had wounded the sus-
pect. She waived extradition.

Three alleged accomplices of
English are being held in the West
Virginia city.

Miss Bosley told detectives she
had met English in Baltimore two
years ago and had kept house for
him in Parkersburg.

**LOOTING GARDENS IN
THIRD WARD DISTRICT**

Col. W. W. Stevenson reports that
residents in the eastern section of
the city have been losing garden
trucks lately. The thieves pick to-
matoes, pull up cabbages and take
anything that they can get their
hands on. Stevenson says that a
vigilance party has been organized
and an effort will be made to cap-
ture the marauders.

Park Avenue Youth In Auto Accident

Edward B. Connelly Injured In
Highway Auto
Crash

Edward B. Connelly, 214 Park ave-
nue, this city, sustained lacerations
and bruises about 8:30 p. m., last
night when his car was struck by
the machine of Robert Cramer, 13,
300 Colt Road Cleveland, near
Beechwood Inn, New Bedford-New
Castle highway. Three cars figured
in the accident.

According to State Highway
Patrolman Jack Cunningham, Con-
nelly was operating toward New
Bedford. Cramer was following in
his car. A machine driven by John
King, 3288 Bluff street, Ft. Louder-
dale, Fla., was operating toward New
Castle.

Cramer attempted to pass Con-
nelly's car and when he realized his
machine couldn't get by, attempted
to fall back into line. His car struck
Connelly's machine and it in turn
struck King's car. Both were dam-
aged more than the Cramer ma-
chine.

Connelly was taken to the Jame-
son Memorial hospital. His condi-
tion today is reported good.

Jacob E. Emery, groceryman,
of 513 South Ray street, was se-

about 5:30 this morning. The
fire which originated from un-
known causes, caused damage to

Good Samaritan Forfeits His Life

Wealthy Philadelphian Is Found
Strangled To Death—
Was Robbed

(International News Service)
PHILADELPHIA, Sept. 2.—Harry
Goldman, 57, wealthy store fixture
manufacturer, who police were in-
formed "let other people's troubles
worry him" lay battered and strangled
to death today because he sought
to play the role of a good Samaritan.

Police were pressing a widespread
search for a former employe Chas.
Miller and his wife, Blanche, 23, a
pretty brunette.

Goldman was found strangled to
death with his own necktie in the
third floor bedroom of a rooming
house last night. He had been beaten
on the head with a whiskey bottle.
His pockets were turned inside
out and emptied. A \$1500 stockpin
he usually wore was missing.

Police learned he had been hur-
ried to his death by a woman who tele-
phoned him at his factory, describ-
ing herself as Miller's wife, and told
him a tale of destitution and pov-
erty resulting from her husband's loss
of his job as a cabinet maker in
Goldman's plant.

Says Italian Flier Was Burned Alive

(International News Service)
NEW YORK, Sept. 2.—"He was
burned alive. We stood there and
watched him, but we could do noth-
ing to save him."

That was the eye-witness account
of the death of General Francisco
Pinedo, Italian flier, who was killed
this morning attempting to take off
on a non-stop flight to Bagdad, as
given today by Alfred Stuart, Inter-
national News Service correspondent
at Floyd Bennett field.

"After his plane crashed, we ran
toward it, saw it was in flames and
then looked for the general," said
Stuart. "We could see him trying
to climb out—three times he made
an effort to get free of the tangle

HAVANA COUNTS TOLL IN WAKE OF HURRICANE

(International News Service)
HAVANA, Sept. 2.—Heavily
armed government troops guard-
ed Havana streets today in the
wake of a terrific hurricane
which swept in from the sea to
take a toll of at least ten lives,
69 injured, and property damage
estimated in excess of \$750,000.

The streets were dark throughout
the night due to crippled power
lines and as a result an orgy of loot-
ing broke out, quelled only after
troops and police shot and killed five
pillagers.

Rush Relief

Although all available relief agen-
cies here were rushed into service
with the aid of emergency govern-
ment measures, it was expected an
appeal to the United States for re-
construction aid would be issued
during the day.

Reports of the storm's damage in
the provinces still trickled in, each
dispatch revealing new loss. Some
concern was expressed regarding
two important cities, Matanzas and
Pinar Del Rio, which, with Havana,
bore the brunt of the hurricane.
Communication with these cities was
disrupted.

Roosevelt May Impose Code On Coal Industry

Negotiations For Code Of
Fair Competition Shat-
tered By Union
Battle

**PRESIDENT MAY BE
FORCED TO ACT**

Recovery Administration
Still Holds Hope Of
Healing New
Breach

(International News Service)
WASHINGTON, Sept. 2.—With
negotiations for a code of fair
competition for the bituminous
fields shattered by a new fight
over a closed shop in the in-
dustry, National Recovery Ad-
ministration officials today pre-
pared to ask President Roosevelt
to impose a code.

While officials of the Recovery
Administration still held hope of
healing the new breach that has
developed out of the growing re-
sistance of industry against union
demands, there appeared to be lit-
tle hope of agreement.

New Split Occurs

Demands by the Appalachian
operators for a clause in the code
giving them the right to employ
and discharge on merit alone and
objections to signing a separate
closed shop contract with the United
Mine Workers of America caused
the new split.

Hugh S. Johnson, recovery admin-
istrator, declared as negotiations
opened between operators and union
leaders that a code would be im-
posed.

GOOD PROGRESS IS MADE, HOWEVER

(International News Service)
WASHINGTON, Sept. 2.—The
National Recovery Administration
has made progress in its attack upon
unemployment but will fall short of
producing jobs for 5,000,000 to 6,000-
000 by Labor Day. The hope of ad-
ministrator Hugh S. Johnson, officials
admitted today.

Recovery administration officials
have accepted the estimate of the
American Federation of Labor of
2,000,000 of the 13,000,000 idle being
returned to work since March 1. No
estimate of the number obtaining
jobs as a result of the NRA is ob-
tainable.

Unofficially estimated show 85 per-
cent of all industry operating either
under permanent codes or the tem-
porary president's reemployment
agreement.

Seventeen codes have been ap-
proved by the President, involving
3,000,000 workers. In time or normal
employment.

Five million workers in factories
are not under permanent codes, but
many are embraced in the temporary
agreements.

Approximately 1,500,000 workers
will be brought under codes next
week in the bituminous coal and re-
tail industry, under present plans.

Famous Italian Flier Loses Life In Plane Crash

Attempted Take-Off From

Flier Loses Control Of Heav-

(International News Service)
NEW YORK, Sept. 2.—
Trapped in the blazing
wreckage of the plane in
which he hoped to set a new
non-stop distance flying re-
cord, General Francisco De
Pinedo, noted Italian air-
man, was burned to death
today when he lost control
of the ship and crashed as he
took off from Floyd Bennett
field.

De Pinedo, hoping to shatter the
distance record hung up recently by
the French fliers, Maurice Rossi and
Paul Codos, took his heavily loaded
ship down the airport runway at
top speed.

Halfway down the concrete stretch
he lost control of the big Bellanca
monoplane.

It rose a few feet in the air, wob-
bled sharply and bounced down to
the runway again.

No Change In Labor Policy

National Recovery Adminis-
tration Neutral In Union
Labor Controversy

(International News Service)
WASHINGTON, Sept. 2.—The na-
tional recovery administration's pol-
icy of neutrality between non-union
industry and organized labor will
stand unchanged unless altered by
President Roosevelt himself.

This was assured today as state-
ments of Administrator Hugh S.
Johnson and Dudley Cates, who re-
signed as deputy for industry in a
protest against his labor policy, dis-
closed that President Roosevelt has
charted this path.

The split between Johnson and
Cates, however, widened as the two
men, long firm friends, explained
with some vigor the causes of their
disagreement.

While the recovery administration
seethed with discussion of the split
between the two high officials, it
was reported authoritatively that
new obstacles had risen to delay the
completion of a code for the bitu-
minous coal industry.

Balancing these developments were
indications that the controversy with
Henry Ford, the automobile manu-
facturer, may be settled with Ford
entering the NRA fold.

FORD'S ATTITUDE ON CODE GIVEN

Willing To Sign If Exempted From Showing Books, Is Report

(International News Service)
WASHINGTON, Sept. 2.—Official word reached the NRA today from the Department of Commerce representative at Detroit, A. J. Barnard, that Henry Ford is willing to sign the NRA automobile code provided he is exempted from showing his books.

It was accepted as offering a possible compromise between the wily automobile magnate and the blunt Hugh S. Johnson, recovery head. Barnard followed his report with recommendation that Ford be granted this exemption in view of his undoubted willingness to comply with the spirit of the program.

Enough has been vouchsafed from authentic sources as to Ford's alternative plan to indicate that his intentions are good, officials said, though individuals. General Johnson declined to make any comment on the situation in the meanwhile, adopting Ford's own attitude.

Candidate For School Director

Mrs. Juanita Brenner Announces Candidacy For Republican Nomination

JUANITA BRENNER

I became a candidate for the office of school director, after consultation with, and requests of friends interested in the school problems of our city.

There are three school directors to be nominated and elected this year, there are six candidates on the Republican ticket, three of them, two men and one woman member, residents of the second ward, again seeking re-election.

The fifth ward, where I am a resident, taxpayer and property owner, does not have any member on the school board or any candidate other than myself.

I am the mother of three children, and before marriage was by occupation a school teacher, have always had a deep and sincere interest in the schools, and am a charter member of the Rose Avenue Parent-Teachers association and its present president; am a member of the First M. E. church and a teacher in the Sunday school, also a member of the East Side Garden club, recording secretary.

I am for a new deal in the schools, especially in the interest of the taxpayers, parents and children.

If nominated and elected, I pledge to work and vote to abolish daylight savings time in the schools, as I know the hardship that daylight savings creates, especially upon the mothers, and the injurious effect it has upon the children, and I fully realize that the majority of the people are opposed to daylight savings.

In closing, I solicit not only your vote, but help and influence.

Signed
JUANITA BRENNER.

ROOSEVELT MAY IMPOSE CODE ON COAL INDUSTRY

(Continued From Page One)

posed on the industry if the peace effort failed.

With President Roosevelt vitally interested in the coal situation, drastic action is forecast by the time he returns next week.

Negotiations were proceeding smoothly, with Appalachian operators having made an informal agreement to recognize the United Mine Workers and negotiate a wage contract, when the resignation of Dudley Cates, industry deputy, came. This, along with growing protests of industrialists against unionization, abruptly changed the situation.

Protests Heard

The operators, who agreed to make only a temporary contract with the union, demanded that the so-called open shop provision included in the automobile code also be placed in their code.

Then came protests from the National Coal Union and the Progressive Miners Union against any effort to exclude them from the field in favor of the United Mine Workers.

J. Van Norman, counsel for the Smokeless and Appalachian Coal Association, ruled that under the recovery act a contract could not be made with the United Mine Workers which would prevent dealings with other unions.

The recovery act, he held, requires that employees be given the right to choose their own representatives to bargain collectively.

STEAMER SINKS AFTER COLLISION; SAVE ALL ABOARD

(Continued From Page One)

during a sudden cloudburst 80 miles south of Cape Hatteras at 11 o'clock last night.

The freighter burst into flames and sank within an hour.

Despite the damage to the passenger liner, those aboard the burning freighter—including one woman passenger, two children and the crew of about 35 men—were taken off safely by the President Wilson.

Orders were received by the liner from its offices in New York to proceed to Newport News for repairs.

Captain Makepeace Ridley, master of the President Wilson, told the story of the collision and rescue in a radio message to International News Service today. He wirelessed that his ship, her bows damaged, was limping safely toward port and expected to arrive some time this evening.

A secondary report of the collision, received at the Dollar line offices here from Captain Ridley, reported that the lower part of the liner's stem had been carried away in the collision, punctured in the crash.

There are 71 passengers aboard the President Wilson, which left New York Thursday for Havana on a world cruise.

FAMOUS ITALIAN FLIER LOSES LIFE IN PLANE CRASH

(Continued From Page One)

off to one side, crashed through a guard fence into a parked automobile and burst into flames.

The noted aviator struggled to escape from the flame-wracked wreckage.

Airport attendants who dashed to aid him saw him lift his arms, shielding his face, as he struggled to free himself from the pilot's seat. Finally, he managed to half pull himself, half fall, over the side of the fuselage.

His clothing ablaze, he dropped beside the wrecked plane and was wrapped in a fierce wave of fire from the shattered gas tanks.

Spectators, police and airport attendances stood by in helpless agony, prevented by the intense heat from approaching near enough to aid the victim.

It was half an hour before De Pinedo's body, charred to a crisp, was removed from beneath the molten, twisted wreckage of his ship.

Lost Control.

Maj. J. Nelson Kelly, manager of the airport; Capt. Ugo D'Annunzio, son of the famed Italian poet and technical adviser for Gen. De Pinedo, and George Haldeman, transatlantic flier, agreed that cause of the crash was De Pinedo's loss of control of an overloaded ship.

"He had too big a load," Maj. Kelly said. "He started down the runway all right but halfway down the plane started to sway and veered off to one side. He brought it back, lifted it a few feet and it swerved sharply through the fence into the automobile parking space."

Capt. D'Annunzio, weeping, said De Pinedo's zeal to get away on the long deferred flight apparently "made him forget all he knew about safe flying."

Spectators at the field, several of them countrymen of the flier, who had come to wish him bon voyage, became hysterical. A number of women started across the field, screaming, but were held back by police.

Gen. De Pinedo, who had planned his flight for several months, had hoped to eclipse the record recently set by Paul Codos and Maurice Rossi, French fliers, when they dashed from Floyd Bennett field to Ray-Sak, Syria, a distance of approximately 5,700.

He hoped not only to set a new mark for distance but to hang up a new time record for such a non-stop flight.

De Pinedo had planned to follow the great circle course over the Atlantic, dash straight across western Europe to Rome, which was his scheduled checking point, then head for Syria and Bagdad.

Foremost Flier.

NEW YORK, Sept. 2.—General Francisco De Pinedo, former Italian air force head, burned to death when his Bellanca monoplane crashed in flames at the start of a projected non-stop distance flight at Floyd Bennett airport today, was one of Italy's foremost fliers.

An intrepid pilot, he was known as "the Lindbergh of Italy" until he was grounded in 1929 by Premier Mussolini for reasons never officially made known.

De Pinedo was formerly military attaché at the Italian embassy in Buenos Aires.

In 1927 he achieved world-wide fame by a flight from Italy to South America and returned home to find an idolized populace.

Two years later he was suddenly relieved of his command of the Italian air forces and sent to Buenos Aires as air attaché while his former post went to Gen. Italo Balbo, who recently led the Italian armada from Orbetello to Chicago and back.

He had been preparing for his distance flight for several weeks and shortly before climbing into the plane which became his funeral pyre announced he would attempt to reach Bagdad on a single jump.

lost as a result. Later Mr. Emery and Officer Lockhart who responded when the indicator was sounded at police station, also turned in an alarm, three alarms being received for the blaze, from the time the first notice was received of the fire until firemen arrived on the scene.

The three cars affire.

By the time E. Truck arrived on the scene, the interior of the garage was a mass of flames. A Chevrolet coach, owned by Miss Mary Emery, daughter of Jacob E. Emery, was totally destroyed, while two trucks, belonging to Mr. Emery were also seriously damaged.

The blaze was confined to the interior of the garage, a frame structure, firemen preventing its spread to the brick store building in the front.

Mr. Emery received his burns when he went into the garage to try and open the doors, and was trapped by a sudden burst of flames. He was in an unconscious condition late this morning.

The firemen at Fourth Ward station have had trouble with the truck on previous occasions, the machine being one of the oldest in service in the city. It had been out of commission yesterday for repairs, but was apparently in good running condition last night.

It has again been taken out of service today and the old White truck which was taken from Second Ward station for emergency use, when the new machine for Second Ward station was placed in service last year, has been assigned to No. 4, temporarily.

According to a list generally accepted by Catholic authorities, Pius XI, who assumed the tiara in 1929, is the 261st pope.

**Start To Observe
Code, September 11**
Meeting in a joint dinner session Friday night, the automobile retailers and the garage repairmen of New Castle voted to begin operation under their code on September 11.

The matter of a code for the automobile retail industry has been rather difficult inasmuch as the business ties in with the oil business, the automobile business and the repair business. The details have been worked out however, and September 11 will see the retailers and repairmen operating under it. A number of dealers and repairmen were present from Sharon, Pa.

The birth rate of 17.1 per 1,000 population; general death rate of 11.1 and marriage rate of 11.1 are all indicative of lowered rates in comparison with those prevailing for the year of 1931 in Pennsylvania.

Wm. Newswander For Jury Commissioner

Present Democratic Incumbent Announces Candidacy For Second Term

In an announcement made today William Newswander of West Pittsburgh, present Democratic Jury Commissioner, declares his intention of seeking the Democratic nomination for re-election. His statement follows:

"Four years ago the Democratic Party named me as its member of the two Jury Commissioners of Lawrence County. Believing that the job should be taken seriously I have devoted my time to performing the duties to the best of my ability. I have felt that the jury lists of Lawrence County should be made up of representative citizens from all sections and all classes.

In the session of 1933 the General Assembly changed the laws so that a Jury Commissioner can be paid for only 65 days service per year. I agree with the theory back of this law and if elected again, pledge myself to conduct the affairs of the office as efficiently as they have been conducted. If this requires more than 65 working days during the year, I will be glad to serve the extra days without cost to the county. I respectfully solicit the votes of the members of the Democratic party on September 19, 1933.

William Johnson Horseshoe Champ Hurls Challenge

Will Play Anybody In New Castle Or Entire State, Court At Taylor And Allen St.

William Johnson, 601 Allen street, today challenged any horseshoe pitcher in New Castle or the entire state of Pennsylvania to a game of the ancient and honorable barnyard pastime. It seems that Mr. Johnson has quite a reputation among the local horseshoe pitchers and would like to test his skill.

Together with George Kelso, the champion of the East Side Mr. Johnson will challenge any doubles players in the city, county and state to a match. Ringers are a specialty with Mr. Johnson and his partner.

The court is well lighted and horseshoe pitching is in vogue from early morning till late at night. The court is located at the corner of Allen and Taylor streets in case you are interested in watching experts toss regulation horseshoes around little iron pegs.

Anyone wishing to play Mr. Johnson or his partner Mr. Kelso can reach them by notifying the New Castle News. Maybe it would be just as well to tell you that Mr. Johnson is no spring chicken being at the ripe age of 64, and still very active, just active enough to be one of the best horseshoe tossers in the city, and perhaps the entire state of Pennsylvania.

For District Attorney

Mont L. Ailey

One of Pennsylvania's greatest Judges, Mr. Chief Justice Paxson, in deciding the case of Commonwealth vs. Nicely, Vol. 130 Supreme Court Reports, page 261, employed the following language in speaking of the office of District Attorney: "The District Attorney is a quasi judicial officer, representing the Commonwealth, which seeks no victims; it is as much his duty, therefore, to see that no innocent man suffers, as it is to see that no guilty man escapes."

Football Team Breaking Camp

Week Of Intensive Training Ends For New Castle High Football Team

Freddy Lane And C. James Look Good As Teams Hold Scrimmage Friday

Head Coach Philip H. Bridenbaugh will lead his squad of 33 tanned huskies back to New Castle late this afternoon and thus another year at Muddy Creek Falls camp has ended. The practice session this morning at 10:30 o'clock was the final in camp. The next practice will be at Taggart Stadium where New Castle High gets ready for Friday night September 15 when Braddock High will be the opponent in the inaugural of the 1933 season.

The scrimmage held Friday afternoon under a boiling hot September sun, served to put the boys in shape. For about two hours or better the candidates tore into each other like playful terriers and Freddy Lane and Chas. James were the backfield men or the first team that stood out quite prominently, both boys making long runs for supposedly touchdowns.

Line Looks Good
Bridenbaugh's big powerful line was functioning nicely, and making plenty of holes for Lane, James and Kominic to pile through. The reserves had a tough time in stopping the temporary varsity team in a series of plays.

The workout can be classed as the best of the entire week, and Doctor Bridenbaugh was well pleased with the results, although he didn't say so in so many words, but when Phil smiles on the football field he is not particularly displeased.

Faculty Manager Ralph H. Gardner, and his two capable assistants, student managers James Goodchild and Jamieson, very busy today getting the camp stuff packed up and ready to be shipped back home.

Luke Rowe who has been in camp was busy with various details. The assistant coaches Klee and Thomas rested after a strenuous week with the gridders. Bridenbaugh also took well deserved rest after the morning workout.

By 6 or 7 o'clock tonight the entire squad of boys will be back in town.

Squad In Shape
The camp has served to put the players in fine fettle. They are in shape for the grind that is to come in less than two weeks. Of course there is the polishing up to be done yet, but the rough edges have been taken off, by two workouts each day at Camp Muddy Creek Falls.

Among the visitors at camp yesterday afternoon to watch the team workout were Paul Cuba, former University of Pittsburgh star tackle and Tony Ostrosky, former Carnegie Tech star end, also Sergeant McCarthy of Pittsburgh.

With the football camp over and the football team due to start practice at Taggart Field, John Connery, director of the season tickets for the High school this year has started to work and has a group of young fellows at work selling reserved season tickets for \$3.50 and \$5.00 for the home games this fall. The \$3.50 seats are the section adjacent to the center section which will sell for the price of \$5.00 for the eight home games.

Statutory offense is a euphemism frequently used in referring to violations of the statutes against various sex offense.

ALEX MORRISON says
The left hand is generally the one that has to stand the most abuse.

This hand during the struggle to maintain a tight hold on the club invariably becomes marked with blisters or sore spots.

Something should be done to protect it, for a comfortable grip with the left hand is the most valuable thing for a player to acquire about his hands.

One thing that will protect this hand, as I have suggested before, is the wearing of a glove.

Virtually the same protection can be had by placing rings of tape around the thumb, first and little fingers. These rings will also serve to strengthen the action of this hand during the swing.

Giants Widen Gap For First Place By Double Victory, Pirates Keep Climbing

NATIONAL LEAGUE RACE IS EXCITING

By COPELAND C. BURG
International News Service Sports Writer

NEW YORK, Sept. 2.—Like the girl with the curl, who was very bad when she was bad and when good they not only turned in excellent performances but gave their nervous systems a terrific shock when each won his game in the final inning with a timely poke. After Hubbell shut out the Braves in a masterpiece of hurling, to prove his right to be called the premier man of the year, and cracked a hit that scored the winning run in the tenth along came Fits to duplicate his amazing feat. He calmly drove out a double that brought in the deciding run.

Hubbell Hero
Carl Hubbell and Fred Fitzsimmons were the pitching heroes and they not only turned in excellent performances but gave their nervous systems a terrific shock when each won his game in the final inning with a timely poke. After Hubbell shut out the Braves in a masterpiece of hurling, to prove his right to be called the premier man of the year, and cracked a hit that scored the winning run in the tenth along came Fits to duplicate his amazing feat. He calmly drove out a double that brought in the deciding run.

Hubbell gave the tribe only four hits, while Fitzsimmons allowed six in eight innings of the vesper. Luque finishing the game and holding the enemy hitless in the ninth.

Travis Jackson did well enough at third base for the Giants, taking the place of Johnny Vergez, who lay in a nearby hospital recovering from an appendicitis operation. Jackson, however, went hitless in both battles.

The double win gave Bill Terry's gang an edge in the current series, two to one, with three games yet to be played.

Pirates Win Again
Pittsburgh's picked up Pirates continued to carry on in their belated drive for the national flag by winning their seventh straight game, an 11 inning struggle with St. Louis 2 to 1. The victory moved the Pirates into second place, just a point ahead of Boston. Traynor's single with Paul Waner on second ended a thrilling pitching duel between the Southpaw ace, Bill Hallahan of the Cards and Larry French of the Bucs.

Four walks each by Malone and Nelson, coupled with five singles and a double, won 7 to 3 for Cincinnati over the Chicago Cubs. Three fast double plays discounted ten hits by the Chicagoans.

Foxs Hits Hard
Jimmy Fox, Philadelphia's hitting star, had a perfect day at bat, including home No. 37, to give the Athletics a 12 to 3 beating of Washington in the American League. "Sugar" Cain, A's pitcher, held the Senators scoreless until the eighth, although he was touched up for 10 hits. The Athletics got 16 safeties off Whitehead and McGoll.

Boston's Red Sox won 4 to 2 in 12 innings from the New York Yankees, now eight and a half games behind the Senators. A sacrifice bunt by Bill Werber and a triple by Cook, both Yankee castoffs proved the undoing of the Yankees in the twelfth. Kline, who replaces Brown in the eleventh inning, was credited with the hurling success.

Other Clubs were idle.

Scourge Of The Southwest—No. 30. Geronimo Surrenders

He explained briefly the way the N. R. A. plan had been worked out to date, and ended by emphasizing the fact that the complete success of the N. R. A. plan lay with such organizations as the women represented. He urged them to do nothing to embarrass the little fellow, who is still struggling along to make both ends meet. He congratulated Mrs. Pearson for the fine group present.

Marcus Feuchtwanger, city chairman, told the women that they were drafted for the service they were being asked to perform, just as everyone else aiding with the N. R. A. movement had been drafted.

"It is your duty to see that the housewives are enrolled in this movement too," he stated. "The idea is to have everyone pledged not to purchase anything from anyone who does not have an N. R. A. sticker."

Chicago Tribune

"I have been drafted to do the same as you, and expect to do my duty. It is much to your benefit to see that this goes over also."

He then explained the meaning of NIRA and NRA, ending by congratulating Mrs. Pearson for the splendid organization she had enlisted in such a short period of time.

Supplies Given Out

Alfred W. Chilton, secretary of the Chamber of Commerce, told the women that there had never been a movement of any importance undertaken, in which it was not necessary to call on the women also to make sacrifices. He stated that the loyalty of the women was deeply appreciated by the committee.

Mrs. Pearson then handed out the supplies to the women, and stated
